

DISCOVERY

PRIMEA

MAKATI , PHILIPPINES

ABOUT MAKATI

Situated along Ayala Avenue in the Makati Central Business District, is a row of residential buildings known as Apartment Ridge.

Multinational companies, top corporations of the country, premium shopping districts, galleries and museums are the hotel's extended neighborhood.

Discovery Primea occupies a desirable corporate and residential address where business, leisure and a cosmopolitan culture converge.

MAP

Discovery Primea is conveniently located within walking distance of the headquarters of top corporations and multinationals in the Central Business District of Makati.

It is also a 5-minute drive away from the newly established hubs of international firms in Fort Bonifacio Global City. For a taste of Manila's cosmopolitan scene, it is almost directly across Rustan's Department Store, Greenbelt Mall, Glorietta Shopping Mall and the Ayala Museum.

It is also located just 8.8 kilometers away from the Ninoy Aquino International Airport, Manila's gateway to the rest of the world.

DISCOVERY PRIMEA

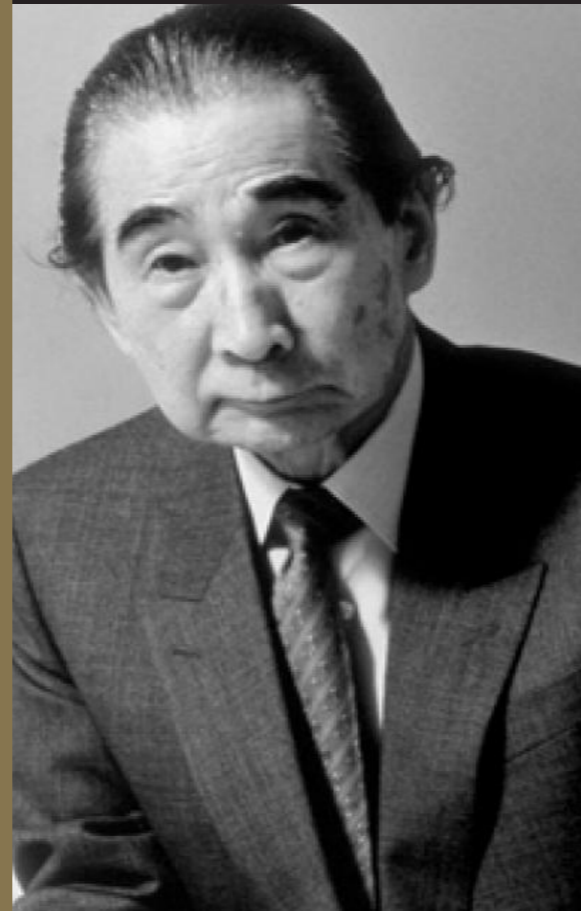

Design beyond the usual

The main architect of Discovery Primea is Kenzo Tange who was awarded the highest honor in architecture, the Pritzker Prize. His design philosophy is continued today by his son, architect Paul Tange through Tokyo-based firm, Tange Associates. Among his distinct pieces are the Tokyo Dome and the Hiroshima Peace Museum.

The interior designer of the hotel is Texiera, Inc. This Los Angeles-based firm holds the distinction of creating some of the most iconic properties in the world such as the Regent Beverly Wilshire, St. Regis and the Peninsula Bangkok.

The attention to detail and design continues in the hotel's restaurant outlets through DWP-Hong Kong. The firm is also designing the presidential suite.

The aesthetics of Discovery Primea can be described as both current and timeless- taking the best of classic design and modern technology. Comfort, functionality and style exude in the hotels rooms, suites and dining outlets.

TO SAVOUR

tapenade

The bold, light and summery flavors of Spain, Italy, France, Greece, Turkey and Morocco are served in this smart casual all-day dining restaurant. A relaxing ambiance caps your dining experience, from the surrounding water features and an open kitchen highlighting a brick pizza oven.

THE
GILARMI
LOUNGE

The lobby bar pays homage to the Gilarmi Apartments, the building which once stood where the Hotel now rises. The Gilarmi Lounge serves Filipino-inspired bar fare, light snack and draught beers from around the world and is an ideal venue for small groups and cozy rendezvous.

This cigar and whiskey bar is named after the year 1824 when the first license for single malt distilleries was granted. This legalized one of the most celebrated palate pairings- that of Cigars and Scotch. Other nips such as cognacs, wines and champagnes are also served together with an epicurean food selection.

flame

RESTAURANT

This fine dining restaurant serves contemporary continental cuisine and prides itself in the use of top quality, seasonal products in its menu, ensuring a high-level and unique dining experience. An Enomatic wine dispenser and Jospo oven helps deliver this. A striking living chandelier that incorporates ornamental plants and lighting fixtures together with a view that overlooks the Makati Skyline completes the experience.

EDGE

Located at the 16th floor with a view of the Makati Skyline, this garden lounge is the ideal setting for casual nights out. Edge serves conversation pieces in the form of creatively crafted cocktails, and contemporary mixology.

TO MEET

Privacy and efficiency of service are the top concerns of high-level meetings. Discovery Primea provides solutions to this through various features such as a dedicated elevator which leads directly to the boardroom or discreet meeting and IT butlers available to serve you.

MEETING ROOMS	Floor Area (approx. in sq.m)	Ceiling Height (approx. in m)	 Boardroom
Meeting Room 1	15	3	6
Meeting Room 2	15	3	6
Boardroom	18	3	10
